I. INTRODUCTION

A. RISK FACTORS

i. Standard Risk Factors:

- Investment in mutual fund units involves investment risks such as trading volumes, settlement risk, liquidity risk and default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the Scheme invests fluctuates, the value of your investment in the Scheme may go up or down depending on the various factors and forces affecting the capital markets.
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the Scheme.
- Samco Flexi Cap Fund is the name of the Scheme and does not in any manner indicate either the quality of the Scheme or its future prospects and returns.
- The sponsor is not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of ₹1 lakh made by it towards setting up the Fund.
- Samco Flexi Cap Fund is the first scheme being launched under its management.
- Samco Flexi Cap Fund is not a guaranteed or assured return scheme.

ii. Scheme Specific Risk Factors

Risks associated with investments in Equities

- Equity and equity related securities are volatile and prone to price fluctuations on a daily basis. The liquidity of investments made in the Scheme may be restricted by trading volumes and settlement periods. Settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases, due to settlement problems, could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme portfolio would result at times, in potential losses to the Scheme, should there be a subsequent decline in the value of securities held in the Scheme portfolio. Also, the value of the Scheme investments may be affected by interest rates, currency exchange rates, changes in law/policies of the government, taxation laws and political, economic or other developments which may have an adverse bearing on individual Securities, a specific sector or all sectors.
- Investments in equity and equity related securities involve a degree of risk and investors should not invest in the equity Schemes unless they can afford to take the risk of losing their investment.
- Securities which are not quoted on the stock exchanges are inherently illiquid in nature and carry a larger liquidity

risk in comparison with securities that are listed on the exchanges or offer other exit options to the investors.

Risk factors associated with investing in Foreign Securities

Subject to necessary approvals and within the investment objectives / asset allocation pattern of the Scheme may also invest in permitted foreign securities which carry risks related to fluctuations in the foreign exchange rates, the nature of the securities market of the country, repatriation of capital due to exchange controls and political circumstances. It is the AMC's belief that investment in foreign securities offers new investment and portfolio diversification opportunities into multimarket and multi-currency products.

Such investment opportunities may be pursued by the AMC provided they are considered appropriate in terms of the overall investment objectives of the Scheme. Since the Scheme would invest only partially in foreign securities, there may not be readily available and widely accepted benchmarks to measure performance of the Scheme. However, such investments also entail additional risks not only limited to the following.

Currency Risk: Moving from Indian Rupee (INR) to any other currency involves currency risk. To the extent that the assets of the Scheme will be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets and income may be adversely affected by changes in the value of certain foreign currencies relative to the Indian Rupee.

Interest Rate Risk: The pace and movement of interest rate cycles of various countries, though loosely co-related, can differ significantly. Investments in securities of countries other than India, the Scheme stand exposed to their interest rate cycles.

Repatriation Risk: The repatriation of capital to India may also be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it of other restrictions on investment.

Risks associated with Short Selling & Securities Lending

Securities Lending is a lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed. There are risks inherent in securities lending, including the risk of failure of the other party, in this case the approved intermediary to comply with the terms of the agreement. Such failure can result in a possible loss of rights to the collateral, the inability of the approved intermediary to

return the securities deposited by the lender and the possible loss of corporate benefits accruing thereon.

Short-selling is the sale of shares or securities that the seller does not own at the time of trading. Instead, he borrows it from someone who already owns it. Later, the short seller buys back the stock/security he shorted and returns the stock/security to the lender to close out the loan. The inherent risks are Counterparty risk and liquidity risk of the stock/security being borrowed. The security being short sold might be illiquid or become illiquid and covering of the security might occur at a much higher price level than anticipated, leading to losses.

Risks associated with investing in Tri-party Repo (TREPS) through CCIL

The Mutual Fund is a member of securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India Limited (CCIL). All transactions of the Mutual Fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus, reducing the settlement and counterparty risks considerably for transactions in the said segments. The members are required to contribute an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in settling transactions routed through CCIL). CCIL shall maintain two separate Default Funds in respect of its Securities Segment, one with a view to meet losses arising out of any default by its members from outright and repo trades and the other for meeting losses arising out of any default by its members from Triparty Repo trades. The Mutual Fund is exposed to the extent of its contribution to the default fund of CCIL at any given point in time i.e., in the event that the default waterfall is triggered and the contribution of the Mutual Fund is called upon to absorb settlement/default losses of another member by CCIL, the Scheme may lose an amount equivalent to its contribution to the default fund.

Further, it may be noted that, CCIL periodically prescribes a list of securities eligible for contributions as collateral by members. Presently, all Central Government securities and Treasury bills are accepted as collateral by CCIL. The risk factors may undergo change in case the CCIL notifies securities other than Government of India securities as eligible for contribution as collateral.

Risks associated with transaction in Units through stock exchange(s)

In respect of transaction in Units of the Scheme through Bombay Stock Exchange ("BSE") and / or National Stock Exchange ("NSE"), allotment and redemption of Units on any Business Day will depend upon the order processing / settlement by NSE and / or BSE and their respective

clearing corporations on which the Fund has no control.

Risks associated with Restrictions on Redemption

The Trustee and the AMC may impose restrictions on redemptions when there are circumstances leading to a systemic crisis or event that severely constricts market liquidity or the efficient functioning of markets. Accordingly, such restriction may affect the liquidity of the Scheme and there may be a delay in investors receiving part of their redemption proceeds.

Risks associated with segregated portfolio

The unit holders may note that no redemption and subscription shall be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in the segregated portfolio, the AMC shall enable listing of units of segregated portfolio on the recognized stock exchange. The risks associated in regard to the segregated portfolio are as follows:

- The investors holding units of the segregated portfolio may not be able to liquidate their holdings till the time of recovery of money from the issuer.
- The security comprising the segregated portfolio may not realize any value.
- Listing of units of the segregated portfolio on a recognized stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units of the segregated portfolio on the stock exchange.
- The trading price of units on the stock exchange may be significantly lower than the prevailing Net Asset Value (NAV) of the segregated portfolio.

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

The Scheme shall have a minimum of 20 Investors and no single Investor shall account for more than 25% of the corpus of the Scheme. However, if such limit is breached during the NFO of the Scheme, the Mutual Fund will endeavour to ensure that within a period of three months or the end of the succeeding calendar quarter from the close of the NFO of the Scheme, whichever is earlier, the Scheme complies with these two conditions. The aforesaid conditions should be complied with in each calendar quarter, on an average basis. In case the Scheme does not have a minimum of 20 Investors on an ongoing basis for each calendar quarter, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme shall be wound up and the units would be redeemed at Applicable NAV. If there is a breach of the 25% limit by any Investor over the quarter, a rebalancing period of one

month would be allowed and thereafter the Investor who is in breach of the rule shall be given 15 days' notice to redeem his exposure over the 25% limit. Failure on the part of the said investor to redeem his exposure over the 25% limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund at the applicable NAV on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

C. SPECIAL CONSIDERATIONS, if any

- Prospective investors should study this Scheme Information Document and Statement of Additional Information carefully in its entirety and should not construe the contents hereof as advise relating to legal, taxation, financial, investment or any other matters and are advised to consult their legal, tax, financial and other professional advisors to determine possible legal, tax, financial or other considerations of subscribing to or redeeming Units, before making a decision to invest/ redeem/hold Units.
- The Scheme related documents i.e. SID/ KIM/ SAI or the units of the Fund are not registered in any jurisdiction including the United States of America nor in any provincial/ territorial jurisdiction in Canada.
- The distribution of the Scheme related document in certain jurisdictions may be restricted or subject to registration requirements and, accordingly, persons who come into possession of the Scheme related documents are required to inform themselves about, and to observe any such restrictions. No persons receiving a copy of this Scheme related documents or any accompanying application form in such jurisdiction may treat these Scheme related documents or such application form as constituting an invitation to them to subscribe for units, nor should they in any event use any such application form, unless in the relevant jurisdiction such an invitation could lawfully be made to them and such application form could lawfully be used without compliance with any registration or other legal requirements.

Accordingly, the Scheme related documents do not constitute an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not lawful or in which the person making such offer or solicitation is not qualified to do so or to anyone to whom it is unlawful to make such offer or solicitation as per applicable law. The AMC, Trustee or the Mutual Fund have not authorized any person to issue any advertisement or to give any information or to make any representations, either oral or written, other than that contained in this Scheme Information Document or the Statement of Additional Information or as is provided by the AMC in connection with this offering. investors are advised not to rely upon any information or representation not incorporated in the Scheme Information Document or Statement of Additional Information or provided by the AMC as having been authorized by the Mutual Fund, the AMC or the Trustee.

- Redemption due to change in the fundamental attributes of the Scheme or due to any other reasons may entail tax consequences. The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any such tax consequences that may arise due to such redemptions.
- The Trustee, AMC, Mutual Fund, their directors or their employees shall not be liable for any of the tax consequences that may arise, in the event that the Scheme is wound up for the reasons and in the manner provided in Statement of Additional Information.
- The Mutual Fund may disclose details of the investor's account and transactions thereunder to those intermediaries whose stamp appears on the application form or who have been designated as such by the investor. In addition, the Mutual Fund may disclose such details to the bankers, as may be necessary for the purpose of effecting payments to the investor. The Fund may also disclose such details to regulatory and statutory authorities/bodies as may be required or necessary.
- In case the AMC or its Sponsor or its Shareholders or their affiliates/associates or group companies make substantial investment, either directly or indirectly in the Scheme redemption of Units by these entities may have an adverse impact on the performance of the Scheme. This may also affect the ability of the other Unit holders to redeem their Units.
- As the liquidity of the Scheme investments may sometimes be restricted by trading volumes and settlement periods, the time taken by the Fund for Redemption of Units may be significant in the event of an inordinately large number of Redemption Requests or of a restructuring of the Scheme portfolio. In view of this, the AMC / Trustee has the right to limit redemptions under certain circumstances - please refer to the paragraph "Suspension/Restriction on Redemption of Units of the Scheme".
- The AMC and/ or its Registrars & Transfer Agent (RTA) reserve the right to disclose/share Unit holder's details of folio(s) and transaction details thereunder with the following third parties: a) RTA, Banks and/ or authorised external third parties who are involved in transaction processing, dispatching etc., of the Unitholder's investment in the Scheme; b) Distributors or sub-brokers through whom the applications are received for the Scheme c) Any other organizations for compliance with

any legal or regulatory requirements or to verify the identity of the Unitholders for complying with anti-money laundering requirements.

- Pursuant to the provisions of Prevention of Money Laundering Act, 2002, if after due diligence, the AMC believes that any transaction is suspicious in nature as regards money laundering, on failure to provide required documentation, information, etc. by the Unit holder the AMC shall have absolute discretion to report such suspicious transactions to FIU-IND and / or to freeze the folios of the investor(s), reject any application(s) / allotment of Units.

E. WHAT ARE THE INVESTMENT STRATEGIES?

The Scheme aims to generate long term capital appreciation by investing in a dynamic mix of equity and equity related instruments across market capitalizations. The Scheme would invest in companies based on various criteria including sound professional management, track record, industry scenario, growth prospects, liquidity of the securities, etc. The Scheme will emphasise on well managed, good quality companies with above average growth prospects. There will be no particular bias towards any market cap size or any sector. The Scheme may also invest a certain portion of its corpus in foreign securities.

The portfolio will be built utilising a bottom-up stock selection process, focusing on appreciation potential of individual stocks from a fundamental perspective. The AMC employs a "Fair value" based research process to analyse the appreciation potential of each stock in its universe (Fair value is a measure of the intrinsic worth of a company). The universe of stocks is carefully selected to include efficient companies having an efficient business model purchased at efficient prices and held with efficient cost and are able to compound consistently.

The scheme by utilising a holistic risk management strategy will endeavour to manage risks associated with investing in equity markets. The scheme has identified the following risks and designed risk management strategies, which are embedded in the investment process to manage these risks.

- i. Quality Risk - Risk of investing in unsustainable / weak companies.
- ii. Price Risk - Risk of overpaying for a company
- iii. Liquidity Risk - High Impact cost of entry and exit
- iv. Concentration risk - Invest across the market capitalization spectrum and industries/ sectors
- v. Volatility Risk - Volatility in price due to company or portfolio specific factors

SAMCO's proprietary HexaShield Investment framework

SAMCO's HexaShield framework is a strategy to put to work money with businesses that can endure and survive in a variety of stressful situations and generate superior long-term risk adjusted returns. It relies on understanding the resilience of companies based on SAMCO's HexaShield framework tests and evaluates every company and institution on 6 most important facets of risks and stress. These tests are meant to measure every company's ability to maintain enough buffer to stay afloat under adverse economic scenarios. The HexaShield tests are also designed to understand if these companies can generate high cash returns on capital employed in a variety of economic conditions including degrowth, recession, etc. This rigorous scientific and statistical process helps get an understanding of risks, reduces room for bias and beliefs, inculcates discipline and enhances the probability of success. Companies that pass the criteria often exhibit 2 characteristics - they survive as a going during economic distress and operate as true compounding machines in normal economic cycles.

The 6 facets of testing that are followed in our HexaShield framework are:

1. Competitive Strength and Pricing Power
2. Balance Sheet and Insolvency

3. Re-investment and Growth
4. Corporate Governance and Leadership
5. Cash Flow
6. Regulatory

The HexaShield tested framework puts businesses through simulated pressure scenarios to filter out the businesses that stand tall and emanate excellence despite any adversity. It observes if companies pass the test on various fundamental factors and only the ones that cross the benchmark percentage hurdle in all 6 pillars will be eligible to be a part of the investment universe. The companies which fail to cross the benchmark level on even a single pillar will fail the test. Samco Mutual Fund endeavors to invest in only the most capital efficient companies. Samco's HexaShield tested framework defines and quantifies the definition of a high-quality business. The investable universe is restricted to a limited set of businesses that passes the criteria and construct a portfolio that scores highly under the HexaShield Framework.

PORTFOLIO TURNOVER

The Scheme being an open-ended scheme, it is expected that there would be a number of subscriptions and redemptions on a daily basis. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio.

There may be an increase in transaction cost such as brokerage paid, if trading is done frequently. However, it will be endeavoured to keep the turnover as low as possible. The fund manager will endeavour to minimize portfolio turnover to maximize long term gains. However, it is difficult to estimate with reasonable accuracy, the likely turnover in the portfolio of the Scheme. The Scheme has no specific target relating to portfolio turnover.

RISK CONTROL

Risk is an inherent part of the investment function. Effective Risk Management is critical to Fund Management for achieving financial soundness. Investments by the Scheme shall be made as per the investment objectives of the Scheme and provisions of the Regulations.

The Fund, by utilizing a holistic risk management strategy, will endeavour to manage risks associated with investing in equity markets. The risk control process involves identifying & measuring the risk through various risk measurement tools. The Fund has identified following risks of investing in equities and designed risk management strategies, which are embedded in the investment process to manage such risks.

Risk & description specific to equities	Risk mitigants/ Management strategy
Quality risk - Risk of investing in unsustainable/ weak companies	Investment universe carefully selected to only include high quality businesses

Volatility - Price volatility due to company or portfolio specific	Control risk class/ sector/ stock exposures to control overall factors portfolio volatility
Event risk - Price risk due to company or sector specific event	Understand businesses to respond effectively and speedily to events

Risk control would also include managing risk in order to keep it in line with the investment objective of the Scheme. The AMC has incorporated adequate safeguards to manage risk in the portfolio construction process. J. CREATION OF SEGREGATED PORTFOLIO

SEBI has, vide clause 4.4 of Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, permitted creation of segregated portfolio of debt and money market instruments by mutual funds schemes, in order to ensure fair treatment to all investors in case of a credit event / actual default of either the interest or principal amount (in case of unrated debt or money market instruments).

The creation of a segregated portfolio is optional and may be created at the discretion of the Board of Directors of Samco Asset Management Private Limited and Samco Trustee Private Limited, in case of a credit event at issuer level i.e. downgrade in credit rating by a Credit Rating Agencies (CRA), as under:

- a) Downgrade of a debt or money market instrument to 'below investment grade',
- b) Subsequent downgrades of the said instruments from 'below investment grade', or
- c) Similar such downgrades of a loan rating.

In case of difference in ratings by multiple CRAs, the most conservative rating shall be considered. Creation of segregated portfolio shall be based on issuer level credit events as mentioned above and implemented at the ISIN level.

The segregated portfolio of unrated debt or money market instruments shall be created only in case of actual default of either the interest or principal amount.

Process for Creation of Segregated Portfolio

The AMC shall decide on creation of segregated portfolio of the Scheme on the day of credit event or actual default of either the interest or principal amount, in case of its unrated debt or money market instruments. Once the AMC decides to segregate portfolio, the AMC shall:

- (i) seek approval from the Board of Directors of the Trustee, prior to creation of the segregated portfolio.
- (ii) immediately issue a press release disclosing its intention to segregate such instrument and its impact on the investors of the Scheme. The AMC shall also disclose that the segregation shall be subject to Trustee approval. Additionally, the said press release shall be prominently disclosed on the website of the AMC.
- (iii) ensure that till the time the Trustee approval is received, which in no case shall exceed 1 (one) business day from the day of credit event or actual default of either the interest or principal amount (in case of unrated debt or money market instruments), the subscription and redemption in the concerned Scheme shall be suspended for processing with respect to creation of units and payment on redemptions.

Once the Trustee approval is received,

- (i) The segregated portfolio shall be effective from the day of credit event or actual default of either the interest or principal amount (in case of unrated debt or money market instruments).
- (ii) The AMC shall issue a press release immediately with all relevant information pertaining to the segregated portfolio of the Scheme. The said information shall also be submitted to SEBI.
- (iii) An e-mail or SMS should be sent to all unit holders of the concerned Scheme.
- (iv) The NAVs of both segregated and main portfolio shall be disclosed from the day of credit event or actual default of either the interest or principal amount (in case of unrated debt or money market instruments).
- (v) All existing investors in the Scheme as on the day of credit event / actual default of either the interest or principal amount (in case of unrated debt or money market instruments) shall be allotted equal number of units in the segregated portfolio as held in the main portfolio.
- (vi) No redemption and subscription shall be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in the segregated portfolio, the AMC shall enable listing of units of segregated portfolio on the recognized stock exchange within 10 working days of creation of segregated portfolio and also enable transfer of such units on receipt of transfer requests.

If the Trustee does not approve the proposal to create a segregated portfolio, the AMC will issue a press release immediately informing investors of the same. Thereafter, the transactions will be processed on the applicable NAV of total portfolio.

Valuation and processing of subscriptions and redemptions

Notwithstanding the decision to segregate the debt and money market instrument, the valuation process shall take into account the credit event date / actual default of either the interest or principal amount (in case of unrated debt or money market instruments) and the portfolio shall be valued based on the principles of fair valuation (i.e. realizable value of the assets) in terms of the relevant provisions of SEBI MF Regulations, 1996 and circular(s) issued thereunder.

All subscription and redemption requests for which NAV of the day of credit event / actual default of either the interest or principal amount (in case of unrated debt or money market instruments) is applicable, will be processed as per the existing SEBI circular on applicability of NAV as under:

1. Upon receipt of Trustee approval to create a segregated portfolio -
 - Investors redeeming their units will get redemption proceeds based on the NAV of main portfolio and will continue to hold the units of segregated portfolio.

- Investors subscribing to the scheme will be allotted units only in the main portfolio based on its NAV.

2. In case the Trustee does not approve the proposal of segregated portfolio, subscription and redemption applications will be processed based on the NAV of total portfolio.

Disclosure Requirements

In order to enable the existing as well as the prospective investors to take informed decision, the following shall be adhered to:

- a. A statement of holding indicating the units held by the investors in the segregated portfolio along with the NAV of both segregated portfolio and main portfolio as on the day of the credit event shall be communicated to the investors within 5 working days of creation of the segregated portfolio.
- b. Adequate disclosure of the segregated portfolio shall appear in all scheme related documents, in monthly and half-yearly portfolio disclosures and in the annual report of the mutual fund and the scheme.
- c. The Net Asset Value (NAV) of the segregated portfolio shall be declared on daily basis.
- d. The information regarding number of segregated portfolios created in a scheme shall appear prominently under the name of the scheme at all relevant places such as SID, KIM-cum-Application Form, advertisement, AMC and AMFI websites, etc.
- e. The scheme performance required to be disclosed at various places shall include the impact of creation of segregated portfolio. The scheme performance shall clearly reflect the fall in NAV to the extent of the portfolio segregated due to the credit event and the said fall in NAV along with recovery(ies), if any, shall be disclosed as a footnote to the scheme performance.
- f. The disclosures at paragraph (d) and (e) above regarding the segregated portfolio shall be carried out for a period of at least 3 years after the investments in segregated portfolio are fully recovered/ written-off.
- g. The investors of the segregated portfolio shall be duly informed of the recovery proceedings of the investments of the segregated portfolio. Status update may be provided to the investors at the time of recovery and also at the time of writing-off of the segregated securities.

TER for the Segregated Portfolio

- a. The AMC shall not charge investment and advisory fees on the segregated portfolio. However, TER (excluding the investment and advisory fees) can be charged, on a pro-rata basis only upon recovery of the investments in segregated portfolio.
- b. The TER so levied shall not exceed the simple average of such expenses (excluding the investment and advisory fees) charged on daily basis on the main portfolio (in % terms) during the period for which the segregated portfolio was in existence.
- c. The legal charges related to recovery of the investments of the segregated portfolio may be charged to the segregated portfolio in proportion to the amount of recovery. However, the same shall be within the maximum TER limit as applicable to the main portfolio. The legal charges in excess of the TER limits, if any, shall be borne by the AMC.
- d. The costs related to segregated portfolio shall in no case be charged to the main portfolio.

Monitoring by Trustees

In order to ensure timely recovery of investments of the segregated portfolio, trustees shall ensure that:

- i. The AMC puts in sincere efforts to recover the investments of the segregated portfolio.
- ii. Upon recovery of money, whether partial or full, it shall be immediately distributed to the investors in proportion to their holding in the segregated portfolio. Any recovery of amount of the security in the segregated portfolio even after the write off shall be distributed to the investors of the segregated portfolio.
- iii. An Action Taken Report (ATR) on the efforts made by the AMC to recover the investments of the segregated portfolio shall be placed in every Trustee meeting till the investments are fully recovered/written-off.
- iv. The Trustees will monitor the compliance of the SEBI Circular in respect of creation of segregated portfolio and disclosure in this respect shall be made in Half-Yearly Trustee reports filed with SEBI.

In order to avoid mis-use of segregated portfolio, Trustees shall ensure to have a mechanism in place to negatively impact the performance of Fund Managers, Chief Investment Officers (CIOs), etc. involved in the investment process of securities under the segregated portfolio. The new mechanism shall mirror the existing mechanism for performance incentives of the AMC, including the claw back of such amount to the segregated portfolio of the Scheme.

Example of Segregation:

The below table shows how a security affected by a credit event / actual default of either the interest or principal amount (in case of unrated debt or money market instruments) will be segregated and its impact on investors. Whether the distressed security is held in the original portfolio or the segregated portfolio, the value of the investors' holdings will remain the same on the date of actual default of either the interest or principal amount (in case of unrated debt or money market instruments).

Key assumptions:

Let us assume a Scheme consists of 3 Securities (A, B and C). It has two investors with total of 10,000 units (Investor 1 with 6,000 units, Investor 2 with 4,000 units).

Total Portfolio Value of Rs. 30 Lakhs (Each Security invested Rs. 10 Lakh).

Current NAV: $30,00,000/10,000 = \text{Rs. } 300$ Per Unit.

Suppose Security A is downgraded to below investment grade or default of either the interest or principal amount (in case of unrated debt or money market instruments) and consequently the value of the security falls from Rs. 10,00,000 to Rs. 4,00,000 and the AMC decides to segregate the security into a new portfolio, then the Investors will be allotted the same number of units in the segregated portfolio as they hold in the main portfolio. So, Investor 1 will get 6,000 Units and Investor 2 will get 4,000 units in the segregated portfolio.

With Segregation, the Portfolio Value is Rs. 24,00,000 (Now B & C Securities worth Rs. 20 Lakh and Security A has fallen from Rs 10,00,000 to Rs. 4,00,000).

	Main Portfolio (Security of B & C)	Segregated Portfolio (Security A)
Net Assets	Rs. 20,00,000	Rs. 4,00,000
Number of Units	10,000	10,000
NAV per Unit	$\text{Rs. } 20,00,000/10,000 = \text{Rs. } 200$	$\text{Rs. } 4,00,000/10,000 = \text{Rs. } 40$

With respect to Investors:

	Investor 1	Investor 2
Units held in Main portfolio (No. of Units)	6,000	4,000
NAV of Main Portfolio	Rs. 200 per Unit	Rs. 200 per unit
Value of Holding in Main Portfolio (A) (Rs.)	12,00,000	8,00,000
Units Held in Segregated Portfolio	6,000	4,000
NAV of Segregated Portfolio	Rs. 40 Per unit	Rs. 40 Per unit
Value of Holding in Segregated Portfolio (B) (Rs.)	2,40,000	1,60,000
Total Value of Holdings (A) + (B) (Rs.)	14,40,000	9,60,000

In case the portfolio is not segregated, the Total Portfolio after marking down the value of security A would be :

Net Assets of the Portfolio Rs. 24,00,000 (Rs. 4,00,000 in Security A and Rs. 10,00,000 in Security B and Rs. 10,00,000 in Security C)	No. of Units 10,000	NAV per unit $\text{Rs. } 24,00,000 / 10,000 = \text{Rs. } 240$
---	---------------------	---

Particulars	Investor 1	Investor 2
Units held in Original portfolio (No. of Units)	6,000	4,000

NAV of Original Portfolio	Rs. 240 Per Unit	Rs. 240 Per Unit
Value of Holding (Rs.)	14,40,000	9,60,000

The AMC / Mutual Fund shall adhere to such other requirements as may be prescribed by SEBI / AMFI in this regard.

D. COMPUTATION OF NAV

The Mutual Fund will value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, or such norms as may be specified by SEBI from time to time.

The Net Assets Value (NAV) of the Units under the Scheme shall be calculated as shown below:

$$\text{NAV (₹)} = \frac{\begin{array}{l} \text{Market or Fair Value} \\ \text{of Scheme's Investments} \end{array} + \begin{array}{l} \text{Current Assets including} \\ \text{Accrued Income} \end{array} - \begin{array}{l} \text{Current Liabilities} \\ \text{and Provisions} \end{array}}{\text{No. of Units outstanding under Scheme on the Valuation Day}}$$

Illustration of computation of NAV:

If the net assets of the Scheme are Rs.149,36,40,000 and units outstanding are 100,00,000, then the NAV per unit will be computed as follows: $149,36,40,000 / 10,00,00,000 = \text{Rs. } 14.94$ per unit. (rounded off to two decimals).

The NAV shall be calculated up to two decimal places. However, the AMC reserves the right to declare the NAVs up to additional decimal places as it deems appropriate. Separate NAV will be calculated and disclosed for each Plan / Option.

Further in case of extreme volatility in the overseas markets, the securities listed in those markets may be valued on a fair value basis.

Distribution Expenses	40	-
Returns after Expenses as on March 31, 2023	1,310	1350

Please Note:

The purpose of the above illustration is purely to explain the impact of expense ratio charged to the Scheme and should not be construed as providing any kind of investment advice or guarantee of returns on investments.
